Total Amount Requested	Amount Requested from CNS	Matching funds from Department
------------------------	------------------------------	-----------------------------------

The College of Natural Sciences provides small grants (up to \$1500) in support of the improvement of teaching, research and outreach. Applications are accepted on a continual basis and awards are made based on the merit of the proposal and the availability of funds. Applications which contain matching funds or propose to use funds to leverage other sources of sponsored support are especially encouraged.

In the space below, describe your proposal including activities you wish to pursue, dates, brief justification and budget, if appropriate. Continue description on no more than one single spaced page. Email application to Martha Baker: [mbaker@cns.umass.edu](mailto:mbaker@cns.umass.edu).
